

SOCKS BOARDING

BOARDING MACHINE FOR MAN, WOMAN AND CHILDREN SOCKS

MINI 12

SOCKS BOARDING MINI 12

New boarding machine for socks with 12 forms, one electric press, a hot air setting tunnel and an automatic unloading system; it can be equipped with water nozzles or low-pressure steaming system. Machine is also suitable for small production environments needing a reliable and flexible system, capable of achieving a good level of finishing quality without the use of expensive systems for the production and distribution of steam. The reduced number of boarding forms speed up their replacement, allowing quick size changes and adapting the machine even to the production of small batches of product. Touch-screen display for the machine setting with the possibility to store working recipes. Electronic self-diagnosis with errors or malfunctions visual messages. Pneumatic device for a quick forms replacement. Setting tunnel with hot air circulation heated by electric elements. Clamp stripping device.

SOCKS BOARDING

MINI 12
